invested)

# Lots of LOVE to the surgeons who are supporting us

## SURGEON'S FEEDBACK

**Dr. Eric Donnenfeld**

Clinical Professor of Ophthalmology NYU at OCLI

"HASA OPTIX's instruments are outstanding. Hard to believe they are disposable. I was completely impressed."

## SURGEON'S FEEDBACK

**Dr. Masara Laginaf**

Consultant & Ophthalmic Surgeon Specialized in Cornea, Cataract and Refractive Surgery at OCL Vision London (UK)

"Sterilisation of reusable instruments and incineration of single use instruments are both carbon intensive processes. The HASA OPTIX recycling program development offsets that carbon footprint to some extent and is the optimal approach to sustainable surgery."

## SURGEON'S FEEDBACK

**Prof. Dr. Martin Dirisamer**

Augenklinik des Klinikums der Universität München

"HASA OPTIX instruments provide a broad range of all kind of ophthalmic single use instruments in a reproducible top-quality for high-performance surgeons."

## SURGEON'S FEEDBACK

**Dr. Vincent Qin, MD, MBA, MPH, FEBO**

Ophthalmology & Eye Surgery Consultant

"Since using the HASA OPTIX Cataract Sets, I never have to worry about missing or broken instruments. I can fully perform cataract surgery in the best material conditions."

## AVAILABILITY OF PRODUCTS

This catalog may contain information on worldwide products and services, not all of which are available in every country. A reference to any product in this catalog does not imply that such product or service is or will be available in your location. Any product or service referred to in this catalog may be subject to different regulatory requirements depending on the country of use. Contact your local HASA OPTIX representative to learn more about our products and services in your region.

Size specifications are stated as accurately as possible. Tip drawings are enlarged to show tip detail. Surgical instruments shown in this catalog are made of stainless steel, unless otherwise indicated.

# Build your own instrument sets for ReLEx surgery

## SIMPLIFY

Reduced number of SKUs contributes to a better work environment for all stakeholders

## PREMIUM QUALITY

Premium quality disposable recyclable instruments with the same look and feel as reusable instruments

## COST CONTROLLING

We offer integrated solutions to allow the precise calculation of surgery costs, unlike with reusable instruments

## ENVIRONMENTALLY FRIENDLY

Instrument sets are presented in a paper pouch avoiding heavy plastic inserts (only one pack and one sterilization)

## CIRCULAR ECONOMY

The stainless steel our instruments are made of can have a second life as non-medical objects

HASA OPTIX has decided to create an integrated re-use circle so that our fully recyclable stainless steel instruments can have a second life as non-medical objects to reduce the global impact of ophthalmic surgery on the environment.
